HIGH PERFORMANCE DISPLAY SYSTEMS

High Performance Display Systems

## This is Expolinc

Producing crap is the easiest thing in the world. That's why we refuse to do it. Saving a fistful of dollars in production costs always mean the same thing: compromises made in regards to materials, design and function. And we're not willing to make that sacrifice, since it risks shattering the brand you've spent time, energy and money to build, if it ends up on a wobbly image wall, a print that detaches itself at will, or a roll up that just will not stand straight. It would turn the projected savings into a loss - a costly illusion.

That's why we only make portable display systems that leads the way for our industry. And we do it at reasonable prices, without negotiating away anything needed for you to be able to meet potential customers in the very best of settings. That's the love we know your brand deserves.

# Flat Base & Magnet Frame

## The stylish system for rollable panels

**Flat Base** is the new best friend of our popular Magnet Frame, designed to give it a super-stylish base, hiding the screws underneath the system.

**Magnet Frame** is a double-sided frame for rollable, easily transported panels. The graphic is mounted securely in just seconds through magnetic force, and a discreet aluminium strip frames it. It can also be used with Panel Base.
